

REPORTING SUSPECTED CHILD ABUSE (INS-G016)

Clarksville-Montgomery County School System (CMCSS) recognizes that state law specifies that every citizen has a duty to report suspected brutality, abuse, neglect, or child sexual abuse. In accordance with T.C.A. §37-1-403(b), the district has developed its own policy and procedures for reporting suspected cases of abuse or neglect to give employees guidance to ensure that suspected child abuse is reported promptly.

The district requires any employee who suspects abuse to report that suspicion directly to the Department of Children's Services (DCS), the building level Child Abuse Coordinator, building principal AND to the District Lead School Counselors and SRO. In addition to reporting to DCS, any employee who suspects severe physical or sexual abuse is required to contact the building principal and SRO by phone directly. If not available, then contact the Level Director, who will notify the appropriate law enforcement agency.

In addition to reporting to DCS, in all cases where the suspected abuser is a CMCSS employee, volunteer, or contracted services provider, or if it is suspected that the abuse occurred on school grounds or while the child was under the supervision or care of the school, district employees will report their suspicions directly to their supervisor who will then report to the Chief Human Resources Officer (CHRO)/ designee who will notify the appropriate law enforcement agency. If an employee suspects a supervisor, individuals may contact CHRO/designee directly.

Each employee has an independent duty under state law and this policy to report child abuse. Persons making a report of child sexual abuse or reporting harm or physical abuse of a child are presumed to be acting in good faith and are immune from any liability, civil or criminal, that may be brought in a state court action. Such person's identity will remain confidential as set forth in the school system's applicable policies and procedures unless otherwise required by law or court order. The referent's name will not be released to any person other than DCS and/or law enforcement and school administrators on a need-to-know basis as required by state law and as needed to "protect the health and safety of the student or other individuals."

The information contained in these training guidelines is to provide supervisors information to use in informing all district employees about the definition of child abuse, how to report suspicions of child abuse, and how to accommodate related investigations.

How Do I Report Suspicion of Child Abuse? (See Exhibit A)

1. Any CMCSS employee who suspects child abuse must relay their suspicions immediately by telephone, or online, to Central Intake, DCS, Child Protective Services.
 - a. **Telephonic referrals** - call **Central Intake** at 1-855-209-4226 (Educators only) or **1-877-237-0004** and complete **INS-F140**. This line is manned 24-hours a day by Central Intake personnel. The referring party will document the nature of the referral by completing INS-F140 in its entirety.
 - b. **Online referrals** –For online referral, complete INS-F140 and complete the online report at <https://apps.tn.gov/carat/referral/emergency.html>, and keep a record of the submitted online report. **Online referrals are for non-emergency situations only per DCS. Online referrals should NOT be completed for suspected physical and/or sexual abuse or any other concern that requires immediate attention.**
 - c. If the person who suspects child abuse does not have access to a telephone, the referent will contact the Child Abuse Coordinator or principal in the building or area who will make a telephone available so that the employee can report the suspected child abuse.
 - d. After DCS Central Intake has been notified, the employee or Child Abuse Coordinator will email the referral to District Lead School Counselors at leadcounselors@cmcss.net and the school resource officer assigned at that location. If the referral involves a CMCSS employee, volunteer or contracted services provider, the referral should be emailed to the CHRO/designee as well.

- e. School personnel will take no action to verify or investigate the complaint.
- f. Child Abuse Coordinators must maintain a record of all referrals/supporting documentation (Telephonic and Verification of Online Reports, etc.) and maintain these in a secure, confidential location at the building/site level. Record of referrals should include who made the call, the purpose of the call, and the name of the DCS staff member contacted. Due to the sensitive nature of this information, it must be maintained in a secure, confidential manner.
- g. The employee making the report should provide as much of the following information as possible to DCS: 1) Name, address, and age of child; 2) Name, address and person responsible for the care of the child; 3) Facts that led to the report., and 4) Other pertinent information such as the location of the child's parents/guardians, identity of the alleged perpetrator, other agencies working with the family, the family's knowledge of the referral, the school's past experience with the family, and other children in the family.
- h. DCS will provide the referent with a Referral ID/intake number. Referral information/updates will be available from the DCS online tracking system using the Referral ID/intake number.

- 2. In addition to reporting to DCS, any CMCSS employee who suspects child abuse that is of a **severe physical** or **sexual nature** must report their suspicions directly to the building principal and SRO by telephone. If the SRO is not available, the Level Director should be contacted, who will notify the Clarksville Police Department or Montgomery County Sheriff's Office as appropriate.
- 3. If an allegation of abuse is made against a CMCSS Employee, volunteer, or contract vendor, suspicions should be reported to the Chief Human Resources Officer, or designee immediately after DCS referral has been made, who will notify law enforcement.

3.1.1 Only if the alleged abuse is made against a CMCSS employee, volunteer, or contractor, or if the abuse occurred on school grounds or while the child was under the supervision or care of the school, will the school administrator notify the parent/guardian of the student.

- 4. In accordance with state law, if the suspected abuse or neglect involves a current or previous employee or individual otherwise affiliated with the school, the reporter is required to report directly to DCS. DCS and law enforcement may be contacted prior to notifying the Child Abuse Coordinator in these situations. As noted in INS-P040, if the suspected abuse involves a current employee, the Chief Human Resources Officer/designee must be notified after reporting to DCS and law enforcement.

CLARIFICATION OF INFORMATION

Employees should address questions regarding this information directly to the building principal or Child Abuse Coordinator for clarification. Principals or Child Abuse Coordinators should notify the District Lead School Counselors of any atypical situations involving DCS personnel that may require Central Office involvement.

INTRODUCTION: Public school systems are considered local agencies with a duty to cooperate in child abuse investigations; therefore, any employee of the public school system must report suspected child abuse in accordance with state law and the district's related policies and procedures. DCS is the agency charged with conducting such investigations. As such, we share a common goal and must partner together to ensure the

protection and privacy of our children. We are not adversaries and must see ourselves as co-advocates in doing what is right for the children in Montgomery County. This is the law!

B. DCS accepts a report of child maltreatment provided it meets these three criteria:

- 1) The report pertains to a child under the age of 18 years, and
- 2) The report alleges harm or imminent risk of harm to the child, and
- 3) The alleged perpetrator is:
 - a. A parent or caretaker, or
 - b. A relative or other person living in the home, or
 - c. An educator, volunteer or employee of a recreational/organizational setting who is responsible for the child; or any individual providing treatment, care or supervision for the child. (Note: you have a professional obligation to report suspected abuse. "If you think it. . . report it.")

C. Referral types:

Drug exposed child	Educational neglect	Psychological harm

Environmental neglect	Abandonment	Child death
Nutritional neglect	Child sexual abuse	

D. DCS does not investigate allegations of minor injuries that are the result of developmentally appropriate discipline or allegations of physical abuse of children by strangers or persons who were not in a caretaking role unless the parent refuses to take necessary action to protect the child from future harm.

DCS accepts all referrals involving sexual abuse of children under the age of 13 years regardless of the previous relationship between the alleged victim and the alleged perpetrator. DCS may assist law enforcement or the district attorney's office in cases of sexual abuse allegations of a child 13-18

years old. DCS does not investigate sexual abuse allegations of a child 13 to 18 years old by an alleged perpetrator who does not have a relationship with the child as defined in B.3) above.
