CLARKSVILLE, TENNESSEE
JOB DESCRIPTION

Job Title: Asst Facilities Manager -
Construction & Renovation Projects

Department: Operations

Grade 499

H.P.D. 8

D.P.Y. 260

Job Description

Date Reviewed: June 2022

Reports To: Facilities
Engineering Manager

Purpose of Job

The purpose of this job is to assist the Facilities and Engineering Manager with the responsibility of overseeing all New Construction and Renovations. This includes planning, coordination, and monitoring of a wide variety of contracted projects related to the construction, repair, remodeling, and/or upgrading of CMCSS facilities.

Essential Duties and Responsibilities

The following duties are normal for this job. These are not to be construed as exclusive or all-inclusive. Other duties may be required and assigned.

Regularly assists in the management of all school facilities to include but not limited to: energy management, air quality control, facility safety regulations, health regulations as they relate to facilities, water and wastewater management, structural and code enforcement, upkeep of maintenance, and facilities as it relates to school plant integrity.

Assist in construction management of new large-scale facilities and design work. Oversees, monitoring and implementing of all phases of new construction, to include managing contractors, subcontractors and monitoring of building codes.

Assists in overseeing the development of architectural, civil or mechanical system plans, specifications and cost estimates prepared by consulting engineers and architects, ensuring compliance with building codes and standards. Assists in specifying design requirements for related systems and ensures that design proposals conform to NEC standards, as well as local codes and regulations. Assists in developing and maintaining design standards for systems and structures.

Assists in preparing preliminary estimates of the costs of specific architectural or civil systems projects. Makes field surveys of existing structures or systems and inspects construction work for conformance with designs, plans, and specifications.

Reviews, corrects, and interprets drawings, plans, and specifications.

Assists in preparing clear, technically sound, accurate, and informative reports containing findings, conclusions, and recommendations.

Assists in the planning and conducting of surveys, tests, and investigations pertaining to structures or systems associated with construction and maintenance operations.

Maintains close contact with manufacturers of various types of equipment and machinery used by the department in order to maintain up-to-date equipment specifications and become knowledgeable of new equipment developments.

Provides technical assistance to and support to building maintenance operations, and for in-house projects involving alterations to existing installations.

Assists with responsibility of facilities design and construction; facilitating activities relating to the design feasibility analysis, development of project scope, identifying user needs and concerns, architect selection, design review coordination, agency submissions, and obtaining construction bids. Reviews and approves consultants' invoices and construction change orders. Assists in coordinating design phase studies, reports and field surveys. Assists in scheduling, facilitating, and conduct meetings with users and project design professionals. Assists in making presentations to community groups, senior management, the Board of Education, and other public officials, relating to assigned projects.

Analyzes facilities for repair and improvements needs. Consults with building principles regarding the CMCSS Capital Projects Budget procedure (FAC-P001) and/or recommends issuance of work orders. Assists in the review of capital improvement requests as per the CMCSS Capital Projects Budget procedure (FAC-P001).

Assists with the preparation and management of budget for School Facilities and Capital projects.

Plans and supervises special projects with limited scope and complexity. Monitors the progress of special contracted projects, coordinating required changes with the project designers and contractors under his/her supervision. Submits purchase orders for work required and reviews invoices and pay requests for correctness as per CMCSS Pay Request procedure (FAC-P002). Prepares, assembles, and monitors required construction documentation and permits for all projects under his/her supervision.

Prepares and manages of budget for School Facilities and Capital projects. Manages budgets in excess of \$2 million including projects totaling over \$100 million.

Exercises discretion and independent judgment with respect to submitting purchase orders for work required and reviewing invoices and pay requests for correctness as per CMCSS Pay Request procedure (FAC-P002).

Prepares, assembles, and monitors required construction documentation and permits for all projects under his/her supervision.

Makes and shares construction decisions in a timely manner and responds immediately to emergency situations.

Performs and promotes all activities in compliance with equal employment and non-discrimination policies; follows federal laws, state laws, school board policies and professional standards.

Additional Job Functions

Performs other duties as required.
