

CLARKSVILLE-MONTGOMERY COUNTY SCHOOL SYSTEM
CLARKSVILLE, TENNESSEE
JOB DESCRIPTION

Job Title: Assistant Facilities Manager-ESSER Projects
(ESSER 3.0 Funded)

Department: Operations

Grade 499

H.P.D. 8

D.P.Y. 260

Job Description

Date Reviewed: January 2022

Reports To: Facilities &
Engineering Manager

Purpose of Job

This is an Elementary & Secondary School Emergency Relief (ESSER) position that will be funded through 2024. (ESSER 3.0 Funded)

The purpose of this job is to assist the Facilities & Engineering Manager with the responsibility of supervising all Facilities and Capital Projects. This includes planning, coordination, and monitoring of a wide variety of contracted projects related to the construction, repair, remodeling, and/or upgrading of CMCSS facilities.

Essential Duties and Responsibilities

The following duties are normal for this job. These are not to be construed as exclusive or all-inclusive. Other duties may be required and assigned.

Regularly assists in the management of all school facilities to include but not limited to: energy management, air quality control, facility safety regulations, and health regulations as they relate to facilities, water and wastewater management, structural and code enforcement, upkeep of maintenance, and facilities as it relates to school plant integrity.

Makes field surveys of existing structures or systems and inspects construction work for conformance with designs, plans, and specifications. Assists in preparing preliminary estimates of the costs of specific projects.

Develops and maintains database of current system infrastructure using Microsoft, CAD, and GIS software. Uses database to assist in future needs assessment, feasibility analysis, and project planning.

Construction management of new facilities and design work. Oversees, monitors, and reports on all phases of new construction, to include directing contractors, subcontractors and monitoring of building codes.

Assists in the development of architectural, civil or mechanical system plans, specifications and cost estimates prepared by consulting engineers and architects, ensuring compliance with building codes and standards. Specifies design requirements for related systems and ensures that design proposals conform to NEC standards, as well as local codes and regulations. Develops and maintains design standards for systems and structures.

Reviews, corrects, and interprets drawings, plans, and specifications.

Prepares clear, technically sound, accurate, and informative reports containing findings, conclusions, and recommendations.

Plans and conducts surveys, tests, and investigations pertaining to structures or systems associated with construction and maintenance operations.

Maintains close contact with manufacturers of various types of equipment and machinery used by the department in order to maintain up-to-date equipment specifications and become knowledgeable of new equipment developments.

Provides technical assistance to and support to building maintenance operations, and for in-house projects involving alterations to existing installations.

Manages projects of facilities design and construction; facilitating activities relating to the design feasibility analysis, development of project scope, identifying user needs and concerns, architect selection, design review coordination, agency submissions, and obtaining construction bids. Reviews and approves consultants' invoices and construction change orders. Coordinates design phase studies, reports and field surveys, schedules, facilitates, and conducts meetings with users and project design professionals. Makes reports to senior management relating to assigned projects.

Assists with the preparation and management of budget for School Facilities and Capital projects.

Exercises discretion and independent judgment with respect to submitting purchase orders for work required and reviewing invoices and pay requests for correctness as per CMCSS Pay Request procedure (FAC-P002). Prepares, assembles, and monitors required construction documentation and permits for all projects under his/her supervision. Recommends purchase or employment of qualified vendors or systems. Recommends the discontinuation of contracts for unqualified vendors or systems.

Assists in monitoring utility usage and identifies problems leading to high cost. Provides utility conservation training and behavior modification coaching as it pertains to utility usage.

Makes and shares construction decisions in a timely manner and responds immediately to emergency situations.

Performs and promotes all activities in compliance with equal employment and non-discrimination policies; follows federal laws, state laws, school board policies, and professional standards.

Additional Job Functions

Performs other duties as required.

Minimum Training and Experience Required to Perform Essential Job Functions

Bachelor's degree in Engineering, Architecture, or Construction Management with demonstrated experience in construction or related field or; High School graduate with 10 years experience in construction field to include 5 years of construction experience in supervisory positions, and verified experience in the construction plan review or codes enforcement process.
