CLARKSVILLE, TENNESSEE
JOB DESCRIPTION

Job Title: Child Nutrition District Equipment Manager **Department:** Child Nutrition

Grade L
H.P.D 8
D.P.Y. 260

Job Description

Date Reviewed: July 2022

Reports To: Child Nutrition Director

Purpose of Job:

The purpose of this job is to perform District level oversight of all Child Nutrition Department needs, flow, and design as they relate to equipment, technology, and supply specifications, schematics, bids, purchases, replacements, and distribution. Furthermore, to ensure that all 38 cafeterias are able to prepare, serve, and provide all students with food of the highest quality and ensure a user-friendly, efficient, and safe work environment for all staff. Additionally, it is the responsibility of this individual to supervise the Child Nutrition Equipment, Technology, and Warehouse Specialist, the Child Nutrition Computer Operations Coordinator, and the Child Nutrition Foodservice Equipment Repair Technicians.

Duties and Responsibilities

The following duties are normal for this job. These are not to be construed as exclusive or all-inclusive. Other duties may be required and assigned.

Manage all aspects of the Child Nutrition Department in new kitchen designs, equipment needs, replacements, repairs, movement, renovations, and/or new building construction projects. Work in conjunction with the District's Facilities Manager, Operations Building Maintenance Manager, Property Control Officer, and Purchasing Director to ensure the Child Nutrition Department needs are met in all of these areas and these areas are in compliance with local, state, and federal guidelines.

Make courtesy checks of all Child Nutrition facilities, coordinate all equipment/technology deliveries/installations, and oversee/coordinate all equipment/technology training for new cafeterias as needed.

Oversee procurement of equipment, technology, and supplies for Child Nutrition

Assess equipment related training needs in all cafeterias through site visits. Develop, schedule, implement, and document training for areas of improvement.

Inventory and track all existing equipment in the schools and in storage to include equipment placement, replacement, and removal.

Determine which equipment items will be replaced, reutilized, sold, or salvaged and provide a monthly report to the Child Nutrition Director for review. Oversee and track the process through completion once a decision has been made.

Supervise the sale of all used equipment, technology devices, and track the funds generated throughout the fiscal year.

Establish and maintain a record of equipment, technology, and supply preferences, pros, and cons that will assist in making the best selections of these items for future building and renovation projects.

Oversee the equipment and supply needs list submitted, prior to the close of schools in May, by managers and ensure the proper procurement and distribution of items is completed to fulfill the needs, prior to the start of school, the following school year.

Perform equipment and technology related responsibilities that require a broad knowledge and understanding of several fundamental skill sets related to this position. These fundamental skill sets include but are not limited to an in depth understanding of commercial kitchen equipment, computer software/hardware, mechanical, electrical, carpentry, plumbing, heating, and cooling.

Ensure that all Child Nutrition Department vehicles are maintained, in proper working order, have all current required documentation in the vehicles, and coordinate all maintenance work and/or repairs needed on Child Nutrition Department vehicles with the Transportation Department.

Act as liaison with the Transportation Department to oversee and ensure that all Child Nutrition CDL and non-CDL drivers of department vehicles are up-to-date and cleared to drive CMCSS vehicles.

Act as the Key Control Representative for the department and is responsible for housing, securing, tracking, obtaining copies, and disseminating any Child Nutrition Department keys to include vehicles.

Act as the Inventory Control Representative (ICR) for the Child Nutrition Department and is responsible to ensure that all Child Nutrition equipment and technology devices are tracked and accounted for appropriately according to the responsibilities of the position.

Responsible for monitoring the district-wide temperature monitoring system within the department and acting as liaison with maintenance, custodial, and the cafeteria managers to

ensure products are protected and equipment is attended to/repared in a timely manner, when these needs arise and/or as directed by supervisor (to include after normal hours and weekends).

Responsible for moving and/or coordinating the movement of equipment and/or products, when these needs arise and/or as directed by supervisor, (to include after normal hours and weekends) to ensure product safety/usability and equipment maintains proper working order and/or temperatures.

Ensure that all materials, equipment, technology software/hardware, and supplies are ordered and delivered in a timely manner. Chooses vendors, places orders, maintains records, and handles returned goods.

Review all equipment, materials, technology, parts, and supply quotes/bids/proposals for acceptance, proper federal/state/local compliance, quality, and accuracy, as it relates to the job.

Inspect and approve quality of purchased equipment, materials, and supplies upon delivery.

Prepares all reports and required documents as related to position.

Accountable for large scale and complicated projects as they relate to the Child Nutrition Department equipment needs district-wide. Requires the ability to analyze complex and detailed information and choose from multiple options.

Develop preliminary sketches or schematics, layouts, details, and assembly drawings. Gather all necessary information needed/requested to develop a final design. May help design prototypes or modifications to existing products or equipment.

Assist with financial analysis and budget preparation as it relates to Child Nutrition new building projects, remodeling projects, equipment, and supply needs.

Compose professional documents to relay complicated yet understandable instructions, training, policies, procedures, science, math, or engineering for use in external or internal dissemination of information, as it relates to position, and as is requested by the Child Nutrition Director.

Investigate and research district-wide equipment and technology needs as they relate to the Child Nutrition Department.

Analyze, interpret, and make recommendations for equipment and technology purchases. Perform analytical comparative studies to assist in district level decision-making relative to Child Nutrition equipment and Child Nutrition technology needs.

Develop a plan, yearly, and provide this to the Child Nutrition Director to establish how a higher standard of food quality, financial stability, and more efficient facilities will be achieved through recommended equipment and technology purchases and replacements.

Provide routine update reports to the Child Nutrition Director on equipment deficiencies across the district.

Use financial, accounting, and budgetary knowledge to assist the Child Nutrition Director in preparing the annual Child Nutrition Budget by providing a report detailing expected expenses as they relate to position.

Make recommendations for equipment maintenance, replacement, and safety procedures. Development a preventative maintenance schedule for the cafeterias, update the schedule routinely, and adjust as needed to ensure equipment and Child Nutrition facilities are maintained properly.

Evaluate conformance with policies, recommend any necessary corrective actions; explain work requirements, methods, procedures, instructions, and regulations to appropriate stakeholders as it relates to position, and as is requested by the Child Nutrition Director.

Provide back-up and oversight, when needed, in the warehouse for order selection, staging, receiving, rotation, inventories, training, and deliveries.

Supervise the Child Nutrition Foodservice Equipment Technicians to include needs related to Child Nutrition financial analysis of equipment needs, cost-benefit analysis for replacement or repairs, obtaining purchase approvals, inventory of parts and supplies, obtaining and gathering information/data for budget analysis needs, and use of credit cards for purchases.

Additional jobs as assigned by the Child Nutrition Director.

Additional Job Functions

Performs other duties as required.

Minimum Training and Experience Required to Perform Essential Job Functions

A Bachelor of Science Degree in foodservice, business, or related field with a minimum of 3 years of related experience. Related qualifying experience may be substituted for the degree requirement. Related work experience is a must; or 1 year of experience with a related bachelor's degree may be considered. A+ Certification preferred. ServSafe certified and SNA credentialing or certification a plus. Other previous experience and/or additional education may be considered. Must have valid CDL with Air-Break endorsement or the ability to obtain one and Tow Motor Certification.

KNOWLEDGE OF JOB

Has general knowledge of the policies, procedures and activities of the School System and cafeteria operation practices as they pertain to the performance of duties relating to the job of Child Nutrition District Equipment Manager. Has general knowledge of cafeteria practices as necessary in the completion of daily responsibilities. Knows how to develop and administer operations and staff plans and objectives for the expedience and effectiveness of specific duties of the department. Knows how to keep abreast of any changes in policy, methods, computer operations, equipment needs, etc. as they pertain to departmental operations and activities. Is able to effectively communicate and interact with supervisors, embers of the general public and all other groups involved in the activities of the department. Is able to assemble information and make written reports and documents in a concise, clear and effective manner. Have good organizational, human relations, and technical skills. Is able to use independent judgment and work with little direct supervision when necessary. Has the ability to comprehend, interpret, and apply regulations, procedures, and related information. Has comprehensive knowledge of the terminology, principles, and methods utilized within the department. Has the mathematical ability to handle required calculations. Is able to read, understand and interpret food production reports and related materials.
