Job Title: Junior Network Engineer

Department: Technology

**Grade J
H.P.D. 8
D.P.Y. 260**

Job Description

Date Reviewed: November 2019

Reports To: Senior Network Engineer

Purpose of Job

The purpose of the Junior Network Engineer is to provide general support to the Senior Network Engineer and Network Engineers regarding the administration of the technical operation and security of the network, to include but not limited to network architecture, network operations, customer technical support, and special projects. In addition, the Junior Network Engineer performs all essential duties and responsibilities as described below.

Essential Duties and Responsibilities

The following duties are normal for this job. These are not to be construed as exclusive or all-inclusive. Other duties may be required and assigned.

Maintains current knowledge of “best practices” pertaining to network design and function on wired and wireless networks.

Demonstrates understanding of basic security principles and best practices when installing or configuring network equipment and services.

Maintains knowledge of wireless protocols and implementing wireless solutions in high density environments.

Collects and analyzes information for development of new networks and for modification of existing networks.

Designs and specifies networks, including installation methods, hardware, software, and procedural requirements.

Provides network users with hardware/software support and instruction on network utilization.

Performs maintenance functions on network hardware and programs; tests/troubleshoots networks for errors.

Repairs, replaces, and/or updates hardware/software.

Installs hardware and software on desktop, laptop, and computer systems.

Maintains documentation of current network design and amends documentation to include all design modifications.

Maintains a working knowledge of various computer equipment, network equipment, and software programs.

Additional Job Functions

Performs other duties as required.

Minimum Training and Experience Required to Perform Essential Job Functions

- Bachelor's Degree in Computer Science or Computer Networking, with one to three years of networking experience; or any equivalent combination of education, training, and experience that provides the requisite knowledge, skills, and abilities for this job.
- Active CompTIA Network+ Certification.
- Valid driver's license and the ability to provide reliable transportation to deliver equipment or provide needed services to all CMCSS locations.

KNOWLEDGE OF JOB

Has considerable knowledge of the policies, procedures, and activities of the district practices as they pertain to the performance of duties relating to the position. Has thorough knowledge of practices as necessary in the completion of daily responsibilities. Knows how to develop and administer operations and staff plans and objectives for the expedience and effectiveness of specific duties of the department. Knows how to keep abreast of any changes in policy, methods, computer operations, equipment needs, etc., as they pertain to department operations and activities. Able to effectively communicate and interact with supervisors, members of the general public, and all other groups involved in the activities of the department. Able to assemble information and make written reports and documents in a concise, clear, and effective manner. Has good organization, human relations, and technical skills. Able to use independent judgment and work with little direct supervision when necessary. Has the ability to comprehend, interpret, and apply regulations, procedures, and related information. Has comprehensive knowledge of the terminology, principles, and methods utilized within the department. Has the mathematical ability to handle required calculations. Knowledgeable and proficient with computers.

**(ADA) MINIMUM QUALIFICATIONS OR STANDARDS
REQUIRED TO PERFORM ESSENTIAL JOB FUNCTIONS**

PHYSICAL REQUIREMENTS: Must be physically able to operate a variety of office machines and computer equipment which includes a mainframe computer, personal computer, printer, modem, calculator, telephone, etc. Must be able to use body members to work, move, or carry objects or materials, up to forty-five pounds. Must be able to exert up to forty-five pounds of force occasionally, and/or up to ten pounds of force frequently. Physical demand requirements are at levels of those for active work.

DATA CONCEPTION: Requires the ability to compare and or judge the readily observable functional, technical, structural, or compositional characteristics (whether similar to or divergent from obvious standards) of data, people, or things.

INTERPERSONAL COMMUNICATION: Requires the ability of speaking and/or signaling people to convey or exchange administrative information. Includes giving assignments and/or directions to co-workers or assistants.

LANGUAGE ABILITY: Requires the ability to read a variety of informational documentation, directions, instructions, and methods and procedures related to the job of Network Technician. Requires the ability to understand and communicate within computer operating systems and requires an understanding of network protocols. Requires the ability to write reports with proper format, punctuation, spelling and grammar, using all parts of speech.
