

UNITED STATES ARMY CADET COMMAND

Who: West Creek JROTC LET IV's

What: Practicing for FEMA (CERT) Certification

Where: WCHS

When: 12 February 2021

Why: Earn FEMA certification so they can become CERT members and support their community.

West Creek High School JROTC LET IV's continue to learn the Community Emergency Response Team (CERT) program. Today Cadets were practicing Disaster Medical Operations, specifically, head-to-toe assessments. To make the training a little more realistic we incorporated an 180 LB medical dummy which the Cadets had to drag 200' before conducting the medical assessment.
