

UNITED STATES ARMY CADET

Who: Selected cadets from the MCHS Battalion

What: A field trip to the Space and Rocket Center

When: May 5th, 2022

Where: U.S Space & Rocket Center in Huntsville, Alabama

Why: Selected cadets were able to travel and explore the Space and Rocket center, as well as learn more about the past accomplishments that have been made regarding Space.

Selected cadets were invited to experience simulators allowing them to feel what it is like to be in a space shuttle when it takes off. They also got to learn more about the history of our nations achievements and the strides that have been made to gain more knowledge about space.

Outcomes: The cadets were able to learn more about the strides that have been made towards being in space and now have a better understanding of the work that it takes to accomplish what has been done.
