For this year's service learning project (SLP) our Cadets chose the Red Cross International Humanitarian Law (IHL) Youth Action Campaign. The Campaign empowers young adults, to educate others on IHL by exploring topics with their communities through peer-to-peer education campaigns. Seeking to expand their outreach, our Cadets coordinated with Clarksville, TN leadership to incorporate multiple methods of outreach within our community. Our Cadets met with and presented their ideas to Mayor Joe Pitts and we're excited to announce his approval of our campaign and the partnership with the city of Clarksville.
