On 05 November 2024, The Clarksville Montgomery County School System's (CMCSS) DAI Office conducted professional development training for all of the district's JROTC Teachers. In keeping with the DAI's start of the School Year's theme "The Standard is the STANDARD!" Master Sergeant (Ret) Karlene Brown, DAI Military Property Specialist, led an informative three hour seminar that focused on a review of the supply SOP and "hands-on training" for teachers which covered cadet clothing records, inventory & turn-procedures, as well as equipment and supply requisition. The training will assist our JROTC teachers with ordering, maintaining, and turning in military & district supplies and equipment.
