By signing below, I acknowledge that I have read and understand the textbook adoption procedure adopted by CMCSS, as recommended by the Tennessee Department of Education. I recognize that only one parent will be chosen as a voting member of each textbook adoption committee, and that submitting this form does not guarantee that I will be chosen as the voting member. If not chosen, I realize that I will still have the opportunity to review textbook options and provide feedback to the committee members before a final decision about textbooks is presented to the Board of Education.
