

On the Job Injury (OJI) Injury Prevention Training

Name: _____

School: _____

Supervisor: _____

Date of Injury: _____

As part of our ongoing effort to minimize the number of On-the-Job injuries sustained by CMCSS employees, an **INJURY PREVENTION COURSE** is required for each injured employee with an OJI claim. The purpose of the course is to encourage and promote employees to follow safe work practices. Due to your recent injury at work, you will be required to complete an online course through PLAN that emphasizes safety awareness, and is beneficial for every employee, regardless of the department and the preventability determination of the injury.

The link for the Injury Prevention Training will be emailed to your CMCSS email address. The email will include instructions and a deadline to complete the course. The course will take approximately (2) hours to complete.

Please contact Rebekah Ham, in the Safety & Health Department at (931) 920-7917 if you have any questions.
